

Blues Skies
by Eydie McDaniel

The Sky Above is Big
Down here we live and move
We watch our steps

The Sky Above is Big
It takes paying attention to function
We run our lives

The Sky Above is Big
We circle our planet without rest
We think, we toil

The Sky Above is Big
We breathe from the edge where it kisses the earth.
It gives, we live

The Sky Above is Big
If we worry and hurry and race and pace
We could forget

The Sky Above is Big
Blue the popular color surrounds us
We wear blue clothes

The Sky Above is Big
With two legs, we so easily look up
With four, look down

The Sky Above is Big
Our view as big as all the sky
When we remember to look and see
The Big Blue Sky
