

Class Registration for Next Time

By Donna Bishop

After a delay of several eons I am giving serious consideration to reincarnating. This is one of the most difficult decisions a spirit can make. It means leaving a home of pure love for worlds that may have lost the remembrance of the peace and serenity of abiding in that state of love.

My friends and family are reluctant for me to leave this disembodied state of being with unlimited freedom to once again incarnate into a physical form on some yet to be determined physical location. I have not made a final decision on this next time move but I'm feeling some internal pressure to consider my options. I have decided to enroll in one of the multitudes of institutions available to spirits considering incarnation.

Imagine an infinite number of dimensions in which a spirit can choose to experience the next time it makes the choice to incarnate. It is mind boggling. I for one am not ready to do the research necessary to explore a whole lot of dimensions. I'm thinking along the lines of returning to some place a little more familiar.

I have decided to enroll in the University of Next Time For Planet Earth. The expressed purpose of the university is to help each spirit develop their Pre-Incarnation Plan. This is serious business. I need to know what the planet has experienced since I left. I need to understand my purpose for incarnating. What am I bringing into the world? What will I be receiving from this experience? My teachers and mentors help me develop my Pre-Incarnation Plan. For the final step I submit my Plan to the Highest Power for approval and implementation or not.

I am a Divine Spirit and aspect of the Creator. My true essence is only love. My only purpose is to express love. At the present time I appear to be in physical form on planet earth. Only my Creator knows what my form and location will be next time. By the way, you look familiar, any chance you went to the University of Next time For Planet Earth?
