Aa in much of society today and yesterday, there are words and ideas that are explosive.

Shipboard, In the Navat Officers Quarters there remains a tradition .no discussion — of politics religion, sex. This might be tradition and reasonable. However the, virile newcomer might ask beginning day one,
What else is there?

Divine intervention infers there is a God, as we in the Declaration of Independence are reminded with the immortal words, quoted by every child in school, “We hold these truths to be self evident, that all men are created equal, endowed by their creator with certain inalienable rights, amoug these are life, liberty and the, happiness.

To keep the topic, interestingly,, the founders immediately limited everyone right to life and liberety, Those who sinned, were denied life (a times) and freedom (more often).

And made way for the average Joe to use this refrain constantly, "There ought-a be a law" for this, that and the other thing. Justice at the flick of a finger.

And recently.

No matter the quality your Television, it has been invaded, as is s every two years with pompous statements about the best qualities of man, namely his ability(diviniry?) to see into the soul of the other politicians. Belief in God not needed to recognize something is amiss.
