

## GREAT EVENTS DURING THE YEARS

*By Josephine Easterling*

Remembering during the years great events in our lives. How great we are to have our minds go back 10, 20, 30 or even 40 years. For me and my family we set out to make a great provision to attend a great, great crowd of our religion assembly. We traveled from Denver, Colorado to Pueblo to take in whole soul and body the word so true of bible discourses. For all three full days so, so much to see. Many live dramas to see.

Also it just takes our breath away people dressed in garments to picture ancient days of the holy ones. It seems so real the way all whom played there parts. Now comes the baptism, taken place for many who want to make the truth there own. After baptism, food for thought. To greet our brothers and sisters. The food is so so good. It's cooked by brothers and sisters home style. Eating fried chicken, and many side dishes. Long tables to meet the great crowd. My family chose the lawn to eat our watermelon that was so good and sweet. For the next 2days more bible discourses.

Next during the years a social event took place from our faith. It was very unique. The place was The Four Mile Historic Park. In the old red barn, entertainment dancing and eating from the charcoal stove burner. Riding the four mile wagon. This trip was in the eighties. It was so enjoyable right in the middle of the city. However I really missed out this year 2011, drawing my family out for the 150 anniversary, a celebration pictured here. My grandson would have loved it, because he did go to summer camp at the four mile house before.

The next important event was my daughter's marriage in the little white chapel at Heritage Square. It was a simple wedding, but beautiful, happy memories. During the years my daughter work for the airlines, we took a trip to Hawaii, what a sight to see. Flying over the waters for 5 hours holding your breath. The waters were so pretty and green, but on the boardwalk, it was mostly blue. After giving Mom this wonderful trip, my daughter and her husband returned to Hawaii for a second trip, so much to see.

Another trip my daughter gave me was a San Francisco trip. Riding the trolley down the hill, the view is again, so breath taking.

After settling into her marriage my daughter took me to the Molly Brown House right here in the city. I was inspired because seeing the movie, it had such an impact.

The special event of bring my grandson in my life (smile) he's still my baby.

The next event, my middle daughter's marriage 1997 the bridesmaids wore purple, and lavender, my favorite colors.

Event, best egg rolls at a friends daughter's shower. Best food I ever tasted. After returning to the same hotel (The Embassy Suites) for our 25<sup>th</sup> anniversary, but the egg rolls couldn't be found.

Another assembly to attend driving from Denver to Salt Lake City, all in the family we went. We rented a big older house, with room for all four children. We could walk to the assembly. The children loved it, it was great! Much praises and songs. It was something different. The city felt like it was on the side of a mountain.

A special event every year, look for the date! It's our grace and honor we give for the memorial of Jesus Christ who died for all mankind. Jehovah's son on Nisan 14, 33 CE. Thank you All Mighty for the memories.
