

Peace means having harmonious relationships.
We can make a better world today.
BUT we need to believe.

We do not need to increase
the military budget as Trump has decreed.
A good decision? absolutely not!

Martin Luther King Jr. observed
countries that prepare for war will eventually
get the desired war absolutely.

Countries that prepare for PEACE
through Diplomacy, humanitarian relief, and fair trade
are likely to achieve PEACE.

Building walls is not a good idea
Mexico is a country right next door.
We need to build relationships.

War prevention programs are important.
The United Nations, NATO, humanity aid, diplomacy
Does Trump believe in these?

International crisis do not have
a military solution as Trump sees it.
We need to negotiate differences.

Dwight Eisenhower said "The strongest
national security comes with peace building".
Peace on earth, goodwill to men.
