

Dreams the Dreamer

By Lynn Cassidy

Images across the screen of sleep
come the colors of whispers,
the shapes of smoke,
the sounds of flowers blooming.

Dreams of the Dreamer are aroused
within the Creator's Great Sanctuary of Mind,
within the Sea of Imagination.

What's real here in the Creator's Space –
the Mind's illusory planets,
the Ego's shadowy selves,
the foreplay of Sun and Moon?

"What is Real?" asks the Dreamed self;
"What is Not real?" asks the Spirit Self.
"Who is the Knower?" asks the Mind self.
"What is true?" asks the emotional self.

"I AM," says the Creator of Dreams.
"There is no Other," sayeth the God-Self.
Dreamer and Dream are One.

Self and self are Awake.
