

ET's and UFO's

by Liz Gibbons

Various ancient texts describe extraterrestrial visitations and indicate they were a common occurrence. There is an inviolate edict that space travelers do not intervene in earth's sovereignty, nor do they interfere with the evolution of the species. The Bible and the *Book of Enoch*, which is an ancient Jewish writing, indicate that both edicts were violated by ancient visitors named the Nephilim. The Bible in Genesis, Chapter 6-8 states, "There were giants in the Earth in those days: and also after that, when the sons of God came in unto the daughters of men, and they bear children to them . . ." They interbred and some believe that the elite and royal families of the world are the bloodlines from the interbreeding.

William Tompkins who worked for the U. S. Navy published a book in 2015 when he was 92 years old. It was titled *Selected by Extraterrestrials: My life in the top secret world of UFOs, think tanks and Nordic secretaries*. In it he relates that when Buzz Aldrin and Neil Armstrong landed on the moon in 1969 Neil immediately switched to the medical channel to communicate so that he would not be heard publicly. He relayed to the chief medical officer, "They're here, they're parked on the side of the crater, they're watching us." Who were "they"? What Neil saw were space ships floating above the surface of the moon with nine foot tall Draco Reptilians standing below the ships. Quite a welcoming committee!

Astronaut Scott Carpenter said that when they were in space, none of them were alone. They were under constant surveillance by UFO's. Gordon Cooper also reported the presence of UFO's, which he believed were from other planets.

The National UFO Reporting Centre is located in Washington State. Reported sightings are increasing. Bear in mind that most sightings are not reported. Also be aware that not all are flown by extraterrestrials. Top secret U.S. military projects have been building anti-gravity craft for a long time.

I have a DVD titled *Contact Has Begun: A True Story with James Gilliland*. James has a ranch at the base of Mount Adams in Washington State. He calls it ECETI which stands for Enlightened Contact with Extraterrestrial Intelligence. He has had several near-death experiences and has been taken aboard space ships. UFO's are regularly sighted over the mountain. In the summer he offers weekend classes and viewing at the ranch. UFO sightings have been witnessed there by thousands, including prominent physicists and scientists. Stories of UFO activity in the area go back hundreds of years among Native Americans. He contends that the inner-circles of the governments of countries around the world know that extraterrestrial life visits our planet and do not want us to know. However, it is also indicated by many that the time to begin revealing this information is near at hand.
