

## UFO Sighting

*By Nancy Mann*

People have encountered aliens – these people claim,  
after encounters, they have radioactivity in their bodies.  
Please come over, sit, listen, share with me a hot toddy...

Two American presidents have seen UFOs –  
A serious one, and ol' Jimmy Carter.  
Brazilians, and desert people have seen UFOs – just for starters.

The Belgian Air Force is set up in order to greet  
Aliens, with speeches, flowers, and good things to eat.  
They have a rocket launching, a rocket receiving pad –  
And no one in Belgium gets mad  
About paying taxes –  
in their government, there's no fighting –  
Because farmers, dairymen, textile dyers  
have had many sightings.

In the U.S., before the craze and fad  
Of UFO sightings affected millions of kids, moms and dads –  
A couple in New Hampshire reported  
A space ship sighting-landing;  
Eight 'greys' peering out of windows;  
They were illuminated by piercing-bright lighting—  
The couples' four hour trip lasted more than seven –  
They claimed abduction, endured experimentation by aliens –  
They received no messages from "heaven."  
The man was stuck with needles –  
On his side the aliens left a bald spot,  
Surrounded by strange, raised warts –  
When home again, photos of the couple were taken,  
their car's radioactivity  
Was measured and all recorded, of course...

At a nearby air base, radar technicians made a UFO report –  
A top-ranking officer (a technically-trained guy—his  
Exam and blood tests showed HE was not "high")  
Had written on the report "Verified."

Do you know what discredited the couple – all around –  
As people then ignored their sparkling metal shards –

Ignored the burned grass and unknown marks  
On grass on the ground?

We humans are strange!  
We toss empirical findings  
Up and Out into the trees –  
We explain sex to children  
As “the birds and the bees...”  
Their unusual experience was written up in the press,  
timidly and weak  
The British journalists wrote about it with mirth and cheek –  
We humans wasted, squandered a chance to answer the UFO Question –

All because, due to the existence of cartoons and T.V. –  
The names of the two was mocked...  
A ridiculous ridicule....  
The true names of the couple?

Betty...and...Barney!
